

IceDrink Ice Makers

High performing quality ice makers

isotherm

Clear Ice / White Ice possibilities

Serving drinks on board is great. But being able to serve drinks with ice cubes is even better. Indel Webasto Marine provides boat owners with the perfect solutions to produce fresh ice on board.

By offering two different models with two different technologies, customers can choose between clear ice and white ice. The model IceDrink Clear uses the spray technology for up to 18 kg of clear ice, while the IceDrink White produces up to 8 kg of white ice cubes.

IceDrink Clear

IceDrink White

Convincing facts for the Isotherm IceDrink Clear:

- Complete stainless steel design
- Production capacity of 18 kg per day
- Spray technology for clear ice
- Available both in 115 or 230 V and 50 or 60 Hz
- Ventilation option
- Three flange options for critical space installations
- Extra water tank for ice cubes made of clean water (optional)

Convincing facts for the Isotherm IceDrink White:

- Available in stainless steel or with white door
- Production capacity of 8 kg per day
- Reliable white ice technology
- High customisation
- No need for external ventilation
- Freezer compartment to maintain the ice cubes frozen
- Extra water tank for ice cubes made of clean water (optional)
