SPX[®]

No matter whether you are an experienced boater looking for a replacement pump or a manufacturer looking for any pumps for your marine application, we are prepared to provide you with the support you need. And no matter where you work or live, access to our products, services, spare parts and support are never far away. In fact, you will find SPX Johnson Pump Marine represented in every major industrial country of the world today and in more than sixty nations altogether.

Water Pressure Systems & Wash Down Pumps

Quiet and pulsation-free even at low speeds, the Aqua Jet five chamber diaphragm pump provides the perfect water pressure or deck wash solution for both small and medium sized leisure and commercial boats. Efficient and compact, Aqua Jet pumps are particularly suitable where low amperage and sound levels in relation to water flow are placed at a premium - such as in shower and galley applications. Operates in fresh or sea water. Self priming.

CE marked according to following standards:

- EN55014: 1993/Radio disturbance
- ISO8846: 1990/Electrical devices – Protection against ignition of surrounding flammable gases
- ISO10133: 1994/Electrical systems – Extra-low voltage DC installations

Fresh Water Handling

Components included in a complete water pressure system

1. Water tank
2. PUMProtector inlet strainer
3. Aqua Jet water pressure pump
4. Battery
5. Fuse
6. Switch
7. Accumulator tank
8. Water heater
9. ON/OFF bipolar switch
10. Motor
11. Check valve
12. Shut-off valve

Aqua Jet Water Pressure Systems

The five chamber Aqua Jet WPS-series provides a reliable heart for small boat and recreational vehicle water pressure systems. Compared to conventional three or four-chamber diaphragm pumps, the Aqua Jet demonstrates dramatically lower noise and water pulsation characteristics. It is recommended to install the WPS-pumps with an accumulator tank. Always use a PUMProtector inlet strainer before the pump intake.

WPS 2.4

Diaphragm	Santoprene	Weight	1.6 kg/3.5 lbs
Valves	EPDM	Length	204 mm/8.02"
Body	PP/PPA	Width	197 mm/7.76"
Motor	85W	Height	110 mm/4.33"

Order No.	Description	Capacity	Pressure Cut Off*	Fuse Size	Connection**
10-24604-103	Aqua Jet WPS 2.4, 12V	9 l/min – 2.4 GPM	2.8 bar – 41 psi	10 A	3/8" NPT / hose 1/2"; 1/2" NPT, 3/4" hose

*Cut off pressure 2.1 bar/30 psi and 1.4 bar/20 psi available on request

** BSP-connection available on request

Aqua Jet Uno WPS 3.5 & 5.2

Medium capacity unit with a single Aqua Jet WPS capacity 13 l/min or 20 l/min fixed on a base with PUMProtector inlet strainer and a 2 litres pre-pressurized accumulator tank.

Order No.	Description	Capacity	Pressure Cut Off*	Fuse Size	Connection
10-13408-01	WPS Uno 3.5, 12V	13 l/min – 3.5 GPM	2.8 bar – 41 psi	10 A	3/4" hose
10-13408-02	WPS Uno 3.5, 24V	13 l/min – 3.5 GPM	2.8 bar – 41 psi	5 A	3/4" hose
10-13408-03	WPS Uno 5.2, 12V	20 l/min – 5.2 GPM	2.8 bar – 41 psi	15 A	3/4" hose
10-13408-04	WPS Uno 5.2, 24V	20 l/min – 5.2 GPM	2.8 bar – 41 psi	8 A	3/4" hose
10-13281-05	WPS Uno 3.5, 12V	13 l/min – 3.4 GPM	2.8 bar – 41 psi	10 A	1/2" hose
10-13281-06	WPS Uno 3.5, 24V	13 l/min – 3.4 GPM	2.8 bar – 41 psi	5 A	1/2" hose
09-46781-01	Switch, complete, WPS 41 psi		41 psi		

*Cut off pressure 2.1 bar/30 psi and 1.4 bar/20 psi available on request

Aqua Jet Duo WPS 10.4

High capacity unit with two parallel-connected Aqua Jet WPS capacity 40 l/min fixed on a base with PUMProtector inlet strainers and a 2 litres pre-pressurized accumulator tank.

Order No.	Description	Capacity	Pressure Cut Off	Fuse Size	Connection
10-13409-01	WPS Duo 10.4, 12V	40 l/min – 10.4 GPM	2.8 bar – 41 psi	25 A	3/4" hose
10-13409-02	WPS Duo 10.4, 24V	40 l/min – 10.4 GPM	2.8 bar – 41 psi	15 A	3/4" hose
09-46781-01	Switch, complete, WPS 41 psi		41 psi		
09-46781-03	Switch, complete, WPS 30 psi		30 psi		

Aqua Jet Uno Max WPS 2.9 & 3.5

Medium capacity unit with a single Aqua Jet WPS with capacity 11 or 13 l/min fixed on a wooden panel for easy and efficient installation. The unit includes a PUMProtector inlet strainer and a 2 litres pre-pressurized accumulator tank.

Order No.	Description	Capacity	Pressure Cut Off	Fuse Size	Connection
10-13410-01	WPS Uno-Max 2.9 12V	11 l/min – 2.9 GPM	2.8 bar – 41 psi	10 A	3/4" hose
10-13410-02	WPS Uno-Max 2.9 24V	11 l/min – 2.9 GPM	2.8 bar – 41 psi	5 A	3/4" hose
10-13411-01	WPS Uno-Max 3.5 12V	13 l/min – 3.5 GPM	2.8 bar – 41 psi	10 A	3/4" hose
10-13411-02	WPS Uno-Max 3.5 24V	13 l/min – 3.5 GPM	2.8 bar – 41 psi	5 A	3/4" hose

Aqua Jet Flow Master 5.0 WPS

The ideal choice for pressurizing water in a closed system. The digital controller adjusts water flow as the demand is increased and decreased while maintaining a very smooth flow. The unique variable flow feature of the Flow Master pump allows the pump to be mounted without an accumulator tank and still maintain an even flow regardless if one or multiple taps are being used.

Dimensions	239 mm/9.4" long x 209 mm/8.22" wide x 113 mm/4.49" high
Weight	2 kg/4.5 lbs
Motor	WPS 5.0 – 150 W, 12/24V DC (with built-in thermal protection)
Body	Nylon/Polypropylene
Valves	Santoprene/EPDM
Diaphragm	Santoprene

Order No.	Description	Capacity	Pressure Cut Off	Fuse Size	Connection
10-13329-103	WPS FM 5.0, 12V	19 l/min – 5 GPM	3.5 bar – 50 psi	15 A	3/8" NPT / hose 1/2"; 1/2" NPT / hose 3/4"; 1/2" NPT 3/4" hose 1/2 CTS
10-13329-104	WPS FM 5.0, 24V	19 l/min – 5 GPM	3.5 bar – 50 psi	8 A	3/8" NPT / hose 1/2"; 1/2" NPT / hose 3/4"; 1/2" NPT 3/4" hose 1/2 CTS

1.1 Pump/Faucet Combination

Powerfull 1.1 GPM pump and faucet combination. Self priming diaphragm style demand pump. Can be mounted above water tank. Easy access, low maintenance. Sleek faucet included. Available in 12V or 24V models.

Order No.	Description
61123	1.1 GPM Pump & 15" Faucet 12V
61124	1.1 GPM Pump & 15" Faucet 12
09-CD65582	15" Chrome Plated Faucet

Aqua Jet Wash Down Pump Kits

20 l/min (5.2 GPM) wash down kit conveniently includes a high capacity Aqua Jet WD 5.2, 5 bar (70 psi), PUMProtector inlet strainer, spray nozzle, bulk head fitting with valve, 7.5 meters (25') of coiled wash down hose and an illuminated panel switch – all in one package.

64535

64534CL

Order No.	Description	Connection	Kit Includes:
64535	Aqua Jet 3.5 Wash Down Pump Kit, 12V	3/8" BSP x 1/2" barb	WD Pump, filter, hose, spray pistol, bulkhead fitting, connectors, and panel switch
64534CL	Aqua Jet 3.5 Wash Down Pump Kit, 12V Clamshell	1/2" NPT / hose 3/4", 3/4" GHT, Hose 3/4" GHT	WD Pump, filter, spray pistol, hose and connectors

64534

10-13399-0311

Order No.	Description	Connection	Kit Includes:
64534	Aqua Jet 5.2 Wash Down Pump Kit, 12V	1/2" NPT / hose 3/4", 3/4" GHT, Hose 3/4" GHT	WD pump, filter, hose, spray pistol, bulkhead fitting, hose connectors, and panel switch
64534-24	Aqua Jet 5.2 Wash Down Pump Kit, 24V	Bulkhead fitting – Inlet 3/4" hose, outlet 3/4" GHT	
10-13399-0311	Aqua Jet 5.2 Wash Down Pump Kit, 12V Clamshell		WD pump, filter, spray pistol and connectors

Accessories

Order No.	Description
09-10616	Bulkhead fitting 3/4" hose (pkgd)
61115	Bulkhead fitting 3/4" hose (bulk)
61155	Spray pistol
69103	Hose connector
10615-00	25 FT Coiled hose
61104-00	US Hose Connector (Orange)

Order No.	Description
09-24653-02-CN	Filter
01-36012	Strainer cover
09-46780	Rubber feet, qty. 4 pcs.
01-36099-1	Red slide clip (Bulk)
09-46956	Red Slide Clips (2 pcs)
82024	Wash Down Panel Switch

Aqua Jet Wash Down Pumps

As a wash down pump, the Aqua Jet offers much higher pressures than competitive models, making clean-up faster and easier than ever before.

Aqua Jet Wash Down Pumps 2.9, 3.5 & 5.2

Complete with trigger nozzle, PUMProtector inlet strainer and hose connections for 1/2" hose. Both BSP and NPT connections included in package.

Dimensions See WPS 2.9, WPS 3.5 and WPS 5.2
 Motor WD 2.9 - 90 W, 12/24V DC
 WD 3.5 - 120 W, 12/24V DC
 WD 5.2 - 185 W, 12/24V DC
 (with built-in thermal protection)

Body PA/PPA
 Valves Nitrile
 Diaphragm Santoprene

Order No.	Description	Capacity	Pressure Cut Off	Fuse Size	Connection
10-24728-03	WD 2.9, 12V	11 l/min – 2.9 GPM	2.8 bar – 41 psi	10 A	3/8" BSP x 1/2" barb / 1/2" NPT x 3/4" barb

Aqua Jet Wash Down Pump Kits

Kit Includes everything you need to washdown your boat , RV, water craft and more. Use any water available fresh or salt water. Complete with collapsing hose, spray nozzle, input hose with filter, 3.5 wash down pump, dual power option 12V cigarette lighter power cord, and battery clips to power from battery terminals. 70 PSI pressure. Fully ingition protected and CE approved washdown pump.

Order No.	Description
64736-00	3.5 Portable Wash Down Pump Kit, 12V

PUMProtector™ Strainer

The PUMProtector™ inlet and universal strainers feature transparent covers for simple inspection, a wide variety of KlickTite™ port connectors for simple installation and removal, and high quality materials for simple maintenance. The connectors make it possible to remove the entire unit for thorough cleaning wherever it's most convenient.

Universal Strainer

Materials	Strainer – Polyamide 66, black	Diameter	80 mm / 3.15"
	Cover – Acrylic, clear, 01-36012 P02	Height	60 mm / 2.35"
	Screen – Stainless steel, 20 and 40 mesh	Weight	0.15 kg / 0.33 lbs
	O-rings – Silicone and EPDM	Mesh size	20 or 40

Order No.	Description	Mesh	Max Liquid Temp.	Max Temp. for Drinking Water	KlickTite™ Connector
09-24652-02-CN	Universal Strainer	40	+50°C – +120°F	+30°C – +85°F	2 x 1/2" hose / 3/8" NPT, 2 x 3/4" hose / 1/2" NPT

01-36012 P02

KlickTite™ Port Connectors

KlickTite™ port connectors are available for virtually any hose diameter and make it possible to remove the entire unit for thorough cleaning wherever it's most convenient. They also make it possible to drain the system quickly for effortless winterizing without the use of any tools.

Order No.	pcs/package	KlickTite™ Connector
09-46957	2	2 x 1/2" hose and 3/8" NPT
09-46958	2	2 x 3/4" hose and 1/2" NPT
09-46939	2	2 x 90°, 3/4" hose
09-47088	2	2 x 90°, 1/2" NPT
09-46938	2	2 x 90°, 1/2" hose
09-47089	2	2 x 90°, 3/8" NPT
09-47094	2	2 x Garden hose adapter
09-47087	2	2 x 90° 1/2" BSP / 3/4" hose
09-47098	2	2 x 1/2" BSP / 1/2"-14 NPSM
09-47092	1	1 x T-connection, 3/4" barb

Accumulator Tank

The use of an accumulator tank is recommended to ensure effective and reliable system function. With an accumulator tank incorporated in the system, the intervals between cut-in and cut-out will be longer when only small amounts of water are drawn off. Less wear and tear on the pump with fewer starts and stops. Pre-pressurized at 0.8 bar / 12 psi.

Volume	2 l / 0.5 gal.
Port connections	1/2" or 3/4" hose
Height	315 mm / 12.4"
Diameter	160 mm / 6.3"
Weight	1,2 kg / 2.7 lbs

Order No.	Connection
09-46839-01	1/2" hose connection
09-46839-02	3/4" hose connection

Accessories

Deck Wash 316 Stainless Flush Mount

- Flush mount
- Connects and disconnects under full pressure.
- Positive lock bayonet connector.
- Double viton o-ring seals.
- Large flow capacity.
- 316 stainless steel.
- Connections made of Nylon 66.
- Two connector versions: American standard garden hose (blue)

61121

61122

Deck Wash Hardware

Order No.	Description
40057	Water pressure regulator
61121	Single outlet, single flush
61122	Double outlet, 2 way flush
61127A	90 deg. WD bulkhead fitting (packaged)

61127A

40057

Tank Monitoring

Monitors 3 holding tanks with digital accuracy. "Field Effect" sensors mount on the outside of any polyethylene or polypropylene tank up to 10mm thick. Great for fresh, gray or black water tanks. Monitor panel reads level for each tank.

Order No.	Description
200600032	Sensa Tank Marine 100

Biosok - Green Remediation Solutions

Order No.	Description
58001-00	Biosok, 1 foot
58005-00	Fuel sorber - Fuel collar
58008	Oil sorb powder
58003	10 ft Bio boom
58004-00	4 ft Bio boom

- Used for oil/gas/diesel remediation
- Environmentally friendly

Heavy Duty Submersible Bilge Pumps

The SPX Johnson Pump Marine submersible pumps can handle most bilge pump applications. Heavy duty motors with stainless steel (SS2343) shaft and tough thermoplastic bodies provide for a long pump life. With an automatic switch installed, the pump automatically starts on when there is water in the bilge and shuts off when it is dry.

Salt Water Tested - Salt Water Tough

CE marked according to following standards:

- EN55014: 1993/Radio disturbance
- ISO8846: Small Craft – Electrical devices
 - Protection against ignition of surrounding flammable gases
- ISO8849: Small craft – Electrically operated bilge pumps
- ISO10133: Small Craft – Electrical systems
 - Extra-low voltage DC installations

Heavy Duty Bilge Pump – 1600-4000 Series

Designed to meet and exceed the tough demands of commercial and recreational duty. This pump has a liquid cooled, 12-pole motor with double ball bearings for extended service life. The 2200 motor is sealed off by a mechanical seal design, while the 1600 model has lip seal. The impeller is carefully designed and tested to maximize head and flow. The 4000 features a robust motor design, mechanical shaft seal, high impact ABS plastic and unique threaded port design. Universal base plate and a choice of 1.1/2" or 2" ports makes for a simple installation. Removable check valve included.

1600

Shaft	SS2343
Wire size	1.3 mm ² – 16 GA
Wire length	1.8 m – 6 ft
Max Ø	108 mm – 4.25"
Max height	149 mm – 5.86"
Weight	1.3 kg – 2.75 lbs

2200

Shaft	SS2343
Wire size	1.3 mm ² – 16 GA
Wire length	1.8 m – 6 ft
Max Ø	108 mm – 4.25"
Max height	177 mm – 7"
Weight	2.7 kg – 6 lbs

4000

Shaft	SS2343
Wire size	2 mm ² – 14 GA
Wire length	1.8 m – 6 ft
Max Ø	121 mm – 4.8"
Max height	216 mm – 8.5"
Weight	2.45 kg – 5.4 lbs

Order No.	Description	Capacity 1.0 m head (13.6 V/27 V)	Capacity straight (13.6 V/27 V)	Amperage	Fuse Size	Connection

Cartridge Bilge Pumps 500-1250 Series

1000 GPH and 1250 GPH incorporate some of the most advanced features in the industry, features developed from service in a wide variety of uses including racing, cruising, sport fishing, and demanding commercial duties. For 500 GPH, 750 GPH, and 1000 GPH, we have improved the design with easy-to-install Dura-Port discharge ports to eliminate stress cracking caused by over-tightened hose clamps. The pumps are delivered including both a straight and a 90° smooth elbow Dura-Port as well as a removable check valve.

500 GPH – 1000 GPH

Max Ø	70 mm – 2.75"
Max height	112 mm – 4.4"
Weight	0.27 kg – 9.6 oz.

1250 GPH

Max Ø	70 mm – 2.75"
Max height	112 mm – 4.4"
Weight	0.32 kg – 10.4 oz.

Order No.	Description	Voltage	Capacity 3 ft (0.9 m) head (13.6 V)	Capacity straight (13.6 V)	Amperage	Fuse Size	Connection

Low Boy Bilge Pump

Low Profile pump design for ease of mounting and removal in tight bilge areas. Perfect for vessels with bilge pumps mounted beneath inboard or I/O engines. Removable cartridge style. For 750 GPH Low Boy Bilge pumps we have easy-to-install Dura-Port discharge ports to eliminate stress cracking caused by over-tightened hose clamps. The pumps will be delivered including both a straight and a 90° smooth elbow. Use 36152 magnetic switch only.

Max length 146 mm – 5.75"
 Width 81 mm – 3.2"
 Height 72 mm – 2.82"
 Wire size 1.3 mm² – 16 GA

50102	1.1/8" Check valve washer for 1250
50511	1.1/8" Check valve flapper for 1250

Multiple Port Shower Sump

This compact shower sump system is designed to meet the higher demands from today's boating industry where more equipment is used. This also includes the fresh water system onboard and involves showers, dish-washing machines, galley sinks, etc. The shower sump turns on/off automatically using our Ultima switch technology and has multiple inlet ports for handling waste water from more than one tapping point. The check valve on the outlet stops water from flowing back into the tank. The tank has a tight-fitting lid to minimize splashing and odors. To further aid in cleaning, the system includes an easily removable mesh filter.

LxW 290x210 mm – 11.42x8.26"
Max height 145 mm – 5.7"

21405	First Mate, 12V	30 l/min - 400 GPH	2.5 A	5 A	3/4"

Bilge Pump System

Viking Compact, manual and electrical in combination

Full-capacity, hand-powered bilge pump perfect for installation in tight spaces.

This rugged, yet sleekly designed, single-chamber diaphragm pump provides first-rate performance and is a snap to install. It can be fitted in minutes from one side of the bulkhead with just four screws, self-sealing against the surface with a durable, watertight gasket. With the pump house recessed behind the bulkhead, only the handle is visible from the cabin or cockpit.

The Viking Compact's inlet and outlet ports can be swiveled 360° and are delivered in two sizes with every pump, Ø25mm (1") and Ø38mm (1.½"). Naturally, the Viking Compact has KlickTite™ connectors fitted as standard, literally making hose connections a snap!

Flow at 10 kPa head and 45 strokes/min

Ø25mm connections	34,5 liters/minute (9.1 US gallons/minute)
Ø38mm connections	45 liters/minute (11.9 US gallons/minute)

Body	Polypropylene
Cover	ABS
Diaphragm	Nitrile rubber
Valves	Nitrile rubber (1 leaf and 1 tricuspid valve)
Wetted parts	Polypropylene, PA66GF30 plastics and nitrile rubber
Maximum lift	2.1 meters (7 feet)
Maximum head	1.2 meters (4 feet)
Combined head/lift	3.3 meters (10.8 feet)
Connection	KlickTite™ connectors for 1" (25 mm) or 1.½" (38 mm) hose. Both options included
Max. liquid temp	+60°C (140°F)
Weight	0.675 kg (1.5 pounds)

Dependability in the grasp of your hand!

Order No.	Description
10-24800-01	Viking Compact w. dia. 25 mm (1") and dia. 38 mm (1 ½") ports.
10-24800-10	Viking Compact w. dia. 38 mm (1 ½") ports Bulk pack.
10-24800-11	Viking Compact w. dia. 25 mm (1") ports Bulk pack.
10-24800-12	Viking Compact w. dia. 38 mm (1 ½") ports and 25 mm (1") ports. Bulk pack

Viking Thrudeck and Bulkhead

When the power is out you can always depend on the hand operated diaphragm bilge pump. The Viking pump can also be used for pumping toilet waste due to the large valve openings. The pump is available in two models for various installation alternatives. It can be mounted behind walls, through deck and under bulkheads.

Viking Thrudeck for installation behind vertical wall or under deck with sealing boot, complete with a cover plate. Viking Bulkhead for surface installation with horizontal lever.

Order No.	Description
70-50005	Thrudeck 1.1/2"
70-50025	Thrudeck 1"
70-50007	Bulkhead 1.1/2"

82004	2 Way Bilge Pump Control, 12V
82004-24 V	2 Way Bilge Pump Control, 24V

3 Way Bilge Pump Control

Bilge Pump Counter

Easy to read and resettable bilge pump counter. Check frequency of bilge pump operation to head off potential issues down the road.

Order No.	Description
83000	Bilge pump counter

Ultima Switch™

Uses the patented Mirus field effect detector cells producing micro-electrical fields that detect disruptions caused by water and fluids. Detector cells are totally sealed and are never in contact with the water, will not corrode and are not affected by oil or foreign debris. No moving parts, totally sealed solid state electronics and field detectors, no mercury and no exposed sensors eliminate corrosion possibilities and makes the Ultima switch environmentally sensitive. Ultima activates at a 50 mm (2") fluid level and deactivates at a 20 mm (¾") fluid level. A 3 second delay prevents false starts. Ultima switch is rated to handle pumps up to 20 amps at 12 or 24 volts.

Order No.	Description	Max Amp.
36303	Ultima Switch, 12/24V	20 A

Automatic Switch AS888/26014

For full automatic bilge pumping operation, connect the automatic switch to your bilge pump. The AS888 automatic switch has a time-proven micro switch without mercury. When water exceeds the acceptable level, the pump is turned on by a rolling steel ball, which changes the pressure on the micro switch. The AS888 attaches to any SPX Johnson Pump Marine bilge pump through the clip on "T-slot" and can be used with 6, 12, 24 or 32 V systems. Use AS888 for a better and safer life afloat!

Order No.	Description	Max Amp.
26014	Automatic Switch AS888	15 A

Electronic Float Switch

Compact mechanical switch offers a combination of reliable solid state electronics and a sealed float switch. False start prevention, no mercury, high impact plastic and encapsulated electronics adds up to dependability. Activates pump at 2" water level, deactivates pump at ¾" water level. 12V. Handles up to 15 amps.

Order No.	Description	Max Amp.
36152	Electronic Float Switch, 12V	15 A
36252	Electronic Float Switch, 24V	8 A
54239	Base, Electronic Switch	

Bilge Alert™

High water alarm featuring digital technology using the patented Mirus field effect. Totally sealed fluid detector are never in contact with water, will not corrode and are not affected by oil or debris. Bilge Alert detects water and sends a signal (3 seconds delay) to the alarm and switch conveniently mounted on a panel. Three way rocker switch allows alarm to be tested, turned off and armed.

Order No.	Description
72303-001	Bilge Alert, High Water Alarm, w/ Ultima, 12V
72303-002	Bilge Alert, High Water Alarm, w/ Ultima, 24V

Fishing Livewell Pumps and Accessories

Leading the way, SPX Johnson Pump has a full assortment of Livewell and Aerator pumps to meet the demanding needs of recreational and professional fisherman worldwide. Easy to clean and maintain replaceable motor cartridges. Pump styles in straight, 90 degree and sea cock installations available in flow rates from 500 GPH to 1600 GPH. A variety of accessories to complete that livewell installation including wash down kits, ice chest aerators, spary bars, and thru hull fittings. When you think livewell pumps think SPX Johnson Pump.

CE marked according to following standards:

- EN55014: 1993/Radio disturbance
- ISO8846: Small Craft – Electrical devices
 - Protection against ignition of surrounding flammable gases
- ISO8849: Small craft – Electrically operated bilge pumps
- ISO10133: Small Craft – Electrical systems
 - Extra-low voltage DC installations

Livewell Aerating pumps

Twin Port Pumps

Offer the convenience of using only one intake for both the livewell and raw water wash down pump. The 3/4" tapered inlet connects directly to the sea cock and the upper outlet port provides a continuous flow of water through the 3/4" discharge to the livewell while the lower outlet port connects to the wash down pump through either a 1/2" or 3/4" ports. New high pressure inlet seal easily handles the higher pressures created by high speed pickups commonly used.

Order No.	Description
48503	500 GPH
48703	750 GPH, 12V
48903	1000 GPH, 12V
48103	1250 GPH, 12V*

*1 1/8" discharge to livewell. Does not include Dura-Port.

Cartridge Aerator Pump

Livewell pumps in 500 GPH and 750 GPH capacities with two different intake configurations of straight and 90°. Smaller profiles to fit in more confined spaces. Easy to change motor cartridge.

Order No.	Description

Ice Chest Aerator kit

Converts any good sized ice chest (Esky) into your own portable live bait tank. The Ice Chest Aerator will keep your live bait alive, or catch fresh, even during the heat of the day. Includes a sturdy First Mate pump, hose, spray bar, press on clamp, battery clips and clear-cut instructions. Since there are no holes to drill the chest can always be returned to its original purpose.

Order No.	Description
24052	Ice Chest Aerator kit
60000	Cartridge style Aerator kit, complete with Batt. clips, Head, Mounting Feet

In-well Aerator kit

The easiest way to add oxygen to your live bait well. Use it as your primary aerator, or to recirculate while you are making a long run across the bay, or if you are trailing the boat, you can stop for fuel and be aerating your catch while the boat is on the trailer. A dependable 500 GPH pump forces water through the aerating head to provide vital oxygen for respiration ensuring your bait stays fresh longer. To empty the well at the end of the day, merely open the valve, activate the pump and water passes through a discharge fitting.

Order No.	Description
34024	In-well Aerator kit

Baitwell Pumps

Designed for self priming water transfer to keep bait alive and active. Quiet five chamber design.

10-13252-(103/107) -BW

Order No.	Description	Capacity	Pressure Cut Off*	Fuse Size	Connection**
10-24677-03	2.4 GPM Baitwell, 12V	9 l/min - 2.4 GPM	N/A	10 A	3/8" NPT / hose 1/2"; 1/2" - 14 NPSM

Aerating Heads

Spray head assemblies can be custom made to required fit, size and flow capacity. A variety of shapes, configuration and options allow us to build these aerating heads to your specifications. Prototyping kits available. Shown here are some of the more popular sizes and configurations.

Order No.	Description
70195	Valve Assembly – overall length 5¾", two ¾" barbs, shut off valve
90061	Aerator Head – overall length 9"
90191	Aerator Head – overall length 13¾" thru-hull, one shut off valve
90261	Aerator head – 2 piece assembly, 8" spray bar with ¾" barb and 6" shut off assembly with ¾" barb and ¾" thru-hull
90331	Aerator Head – overall length 12¾", ¾" thru-hull, one shut off valve
90511	Aerator head – overall length 9¾", ¾" thru-hull, one shut off valve
90681	Aerator head – overall length 10½", ¾" barb, shut off valve w/bracket
90791	Aerator head – overall length 6¾", ¾" thru-hull, shut off valve

Thru-Hulls

Super tough and durable molded UV stabilized glass coupled polypropylene thru-hulls will not corrode or discolor and are not susceptible to electrolysis.

FIP DC Pumps for Bilge, Deckwash & Refueling

With their high level of flexibility, these pumps are ideally suited for use in boats as bilge and deckwash pumps, fresh water pumps, refuelling pumps for oil and diesel. These pumps may be combined with a vacuum switch for automatic operation. Capacities vary from max 14 l/min to 55 l/min, allowing the proper matching of the pump to the application. All motors are heavy duty to provide long service life even under heavy use. Available in 12 or 24 volts.

CE marked according to following standards:

- F2P10-19, F3B-19, F4B-19, F4B-11
- EN50082-1: 1992/Generic EMS Standard
- EN55014: 1993/Radio disturbance
- IEC801-2: 1984/Electrostatic Discharge
- IEC801-3: 1984/Radiated Immunity Test
- ISO8846: Small Craft – Electrical devices – Protection against ignition of surrounding flammable gases
- ISO8849: Small Craft – Electrically operated bilge pumps
- ISO10133: Small Craft – Electrical systems – Extra-low voltage d.c. installations
- F5B-19 12/24 V
- EN55014: 1993/Radio disturbance

DC Driven Flexible Impeller Pumps

Pumps suited for use in boats as bilge and deckwash pumps, fresh water pumps, refuelling pumps for oil and diesel. Can be combined with a vacuum switch for automatic operation. Capacities vary from max 14 l/min to 55 l/min, allowing the proper matching of the pump to the application. All motors are heavy duty to provide long service life even under heavy use.

F2P10-19 – Capacity 15 l/min

Fully equipped, self-priming multipurpose pump operating on a simple and uncomplicated principle. Ideal for pumping water, oils and chemicals.

Order No.	Description	Body	Impeller	Seal	Connection	Length	Width	Height	Weight
10-24180-1	F2P10-19, 12V	PTMT	09-1077B-9	Lip seal	½" hose	172 mm – 6.8"	117 mm – 4.6"	78 mm	1,6 kg – 3.5 lbs

F4B-11 Ultra Ballast – Capacity 52 l/min

Designed to quickly fill or, when reversed, drain a ballast tank at a rate of more than 45 l/min (12 GPM). Capable of pumping fresh or sea water the pump's robust design can handle the rigors of continuous duty usage, is reversible, and has a built in thermal overload for added protection. Polarity reversing switch kit 09-47196 available as accessory. Do not run dry for extended periods of time. It will increase the pump longevity and ensure reliable performance for many years. Note! Only for water handling.

Order No.	Description	Body	Impeller	Seal	Connection	Length	Width	Height	Weight

Gear Pump with Oil Change Kit

Light and compact oil change pump with pump body and gears made of PTFE. Complete with oil dip stick extraction tube 6 and 8 mm (0.236" and 0.315"). 180 cm (70.9") connection wires with battery clamps.

Port connection: Outlet: 14 mm (0.551") hose
Inlet: 8 mm (0.315") hose
Self priming: Up to 1 m (3.28 feet)
Capacity: 8 l/min (2.11 GPM)
Dimension: 140 x 80 mm (5.51" x 3.15")
Weight: 1.1 kg
Fuse size 12V: 8 A
Fuse size 24V: 6 A

CM-series – a line of compact magnetic driven centrifugal pumps which combine high flow rates with very low electric current consumption. Suitable for fresh water, ethylene glycol and salt water circulation.

C090 – mechanical sealed pumps with a motor designed for continuous operation. Suitable for fresh water and ethylene glycol circulation.

Waste Water Handling & Marine Toilets

From a name you can trust, the AquaT™ toilet provides the comfort and convenience of a land-based lavatory at sea — a marine toilet that flushes as quietly as a toilet on land.

In combination with the Viking Power 16 or 32 and a Grey Water Tank you will have a complete waste water handling system.

CE marked according to following standards:

- Viking Power
- Recreational Craft Directive 94/25/EEC
- ISO8846: Small Craft – Electrical devices – Protection against ignition of surrounding flammable gases
- ISO10133: Small Craft – Electrical systems – Extra-low voltage d.c. installations

- Electromagnetic Compatibility Directive 89/336/EEC
- EN55014: 1993/Radio disturbance
- AquaT Silent Electric, Standard Electric & Premium
- Recreational Craft Directive 94/25/EEC
- ISO8846: Small Craft – Electrical devices – Protection against ignition of surrounding flammable gases
- Electromagnetic Compatibility Directive 89/336/EEC
- EN55014: 1993/Radio disturbance

Viking Power 16

A modern, single-chamber, self-priming diaphragm pump that can be set up in several different pump/motor configurations. It is easy to install anywhere after the drain outlet in the wastewater system or as a bilge pump in any leisure craft – new or used. Its non-choke valves mean that no in-line filters are necessary. The pump can be run dry, and it can also handle a mixture of air and water without difficulty. The Viking Power 16 is self-priming up to a height of 3 meters.

With its low pulse and muffled rubber bracket, this pump offers quiet operation. Specifically designed to pump waste water, the Viking Power 16 has been built to last, and engineered for easy maintenance. When it comes time to replace the premium grade reinforced nitrile rubber diaphragm, you can put in a spare without even removing the pump from the system. Delivered with 1" hose and 3/4" hose 1/2" BSP KlickTite™ XL connectors. 90° KlickTite™ XL connectors available as extra accessory.

Now with double check valves for improved pumping action

Viking Power 16

Motor	2,3 amp (12V), 1,2 amp (24V) at 0.1 bar 12/24V DC (with built-in thermal protection)
Body	Nylon, glass-fiber reinforced
Valves	Nitrile rubber
Diaphragm	Reinforced nitrile rubber
Length	186 mm – 7.3"
Width	235/181 mm – 9.3"/7.1"
Height	118/204 mm – 4.6/8"

Grey Water Tank

The Grey Water Tank is designed to be used as collection tank for waste water from showers, sinks, dishwashing machines, etc with 19 mm, 25 mm and 38 mm inlet ports, and 19 mm and 25 mm outlet ports. The tank includes an Ultima Switch for automatic operation and is easy to connect to any 12V/24V pump up to 20 amp. The tank is prepared for Viking Power 16, with pre-drilled holes for the pump.

Dimensions 185x280x340 mm

10-13350-03-003	Grey Water Tank & Viking Power 16 Combo

Viking Power 32 & Viking Power Vacuum

The Viking Power 32 and Viking Power Vacuum diaphragm pumps have been designed to meet the rigorous demands of the world's leading manufacturers of boats, recreational vehicles and busses.

Thanks to its single-chamber design and non-choke valves, the Viking Power 32, can be used to pump un-macerated sewage to a holding tank or transfer it onwards to a septic tank.

The Viking Power Vacuum has double check-valves and can therefore also be used in vacuum toilet systems. Naturally, pumping ordinary shower or sink drain water or bilge water is no problem for either pump.

Like the Viking Power 16, this pump has been engineered with a ball-bearing supported transmission for long service life. The pump cannot only be run dry, it can also handle a mixture of air and water without difficulty. The Viking Power 32/Vacuum provides maximum flow of 32 l/min and is self-priming up to a height of 2.5 m for VP 32 or 5 m for VP Vacuum. Although powered by an electric motor, this pump can also be cranked by hand in case of an emergency.

Viking Power 32

- Motor 3.3 amp (12V), 1.6 amp (24V) at 0.1 bar
12/24V DC (with built-in thermal protection)
- Body Nylon
- Valves Nitrile rubber
- Diaphragm Reinforced nitrile rubber
- Length 277 mm – 10.9"
- Width 264 mm – 10.4"
- Height 192 mm – 7.6"
- Weight 5.0 kg – 11.0 lbs

Crank for manual handling

Macerator Pump

The TA3P10-19 macerator pump takes care of toilet waste. A rotary cutter shreds waste before it is pumped into or out from the holding tank. The pump should be connected as close as possible to the holding tank discharge outlet or the bowl discharge outlet. Note! Use unbleached lavatory paper only.

AquaT™ Marine toilets

Available in a wide variety of different versions marketed under four basic models — standard, silent and premium electric-powered or manual — the AquaT™ marine toilet has been designed to meet virtually every conceivable lavatory installation situation onboard.

Priced competitively, the fine finish and well thought-through design of these toilets is remarkable. Made from white vitreous porcelain, and with corrosion resistant parts throughout, the AquaT™ marine toilet, is quiet, robust and easy to clean.

Most models can be ordered with standard, bevelled or low profiles in order to fit almost any hull and bulkhead configuration, and all are available in either compact or comfort versions so you can outfit your marine lavatory with the perfect-sized toilet, no matter what the layout.

The standard electric model is equipped with a combined pump unit for disposal and flushing. It is easy to install and an economical choice of electrical toilet.

The silent and premium electric models are shipped with well-proven Aqua Jet diaphragm pumps in either 12V or 24V versions, and the manual version incorporates an ergonomically designed, handpowered piston pump that can be mounted for either left-hand or right-hand use.

It is probably fair to think of most toilets as commonplace products, but look at the features and you are sure to see that the AquaT™ is far from ordinary. Quiet, hygienic and reliable, the AquaT™ marine toilet is perfect for almost any marine toilet room.

Toilet mounted below the waterline and discharging overboard.

Toilet mounted above the waterline and discharging overboard.

Toilet waste discharging into holding tank, discharging elbow below top of the holding tank at any time.

Toilet waste discharging into holding tank, discharging elbow always above top of the holding tank.

 • EN 55014 – 2 (1998) + A1 (2002)

AirV extra heavy duty radial blowers for marine engine compartment ventilation prior to start up. The blowers are made for continuous duty and can therefore be used for air intake or extraction in bilges, galleys, accommodation and other compartments.

AquaH is an innovative series of AISI 316 stainless steel water heaters, with a storage capacity of 22 up to 80 litres (5.3 to 19.3 gal.). Dual heating as standard - electrical heating and indirect heating based on a second heat source, for example the cooling system from the Marine engine or generator set.

AirV – Extra Heavy Duty Radial Blowers

Marine radial blowers designed for engine compartment ventilation prior to start up. Made for continuous duty and is therefore suitable for air intake or extraction in bilges, galleys, accommodation and other compartments. Flange Mount and Flex Mount design with double ball bearing motor, high-impact anti-shock ABS body and shaft and screws in stainless steel.

AquaH – Marine Water Heaters

Stainless steel water heaters with dual heating as standard - electrical heating and indirect heating based on a second heat source, for example based on the cooling system from the Marine engine or generator set. AquaH is an innovative series of AISI 316 stainless steel water heaters, with a storage capacity of 22 up to 80 litres (5.3 to 19.3 gal.). The heaters are cased in AISI 304 stainless steel and is provided with a sturdy compact plastic end cover which also includes the mounting brackets.

Electrical heating elements are available in Incoloy at 500 & 1200 Watts allowing hot water production when engine heat is not available but when 230 volts AC is. Delivered with an adjustable safety thermostat for temperature adjustment while on electrical heating.

Impeller Pumps

Flexible impeller pumps provide an efficient solution to most raw water pumping needs. The pumps are self-priming and can pass fairly large solids without clogging or damaging the pumps. Designed for a number of applications on board.

Self-Priming Flexible Impeller Pumps

Operating Principle

A vacuum is created as the flexible impeller vanes straighten upon leaving the cam, drawing liquid into the pump.

The rotating impeller carries liquid from the inlet to the outlet port. As a consequence of their design, flexible impeller pumps can pass fairly large solids.

When the flexible impeller vanes regain contact with the cam, they bend and the liquid is discharged from the pump in a uniform flow. Liquids can be pumped in the opposite direction by reversing the rotation of the pump.

Automatically Controlled Clutch Pumps

With an electro-magnetic clutch you will have pumping power whenever needed, at a push of a button, without being at the pump. Combined with a vacuum switch (recommended for bilge pump application), the clutch will automatically disengage whenever the pump starts priming air, thereby preventing dry running and pump damage. Automatically controlled pumps are available in sizes from 1" to 2.1/2" (20 l/min to 625 l/min), with clutches in 12 or 24 volts. Wearing parts are easily replaceable and service kits are available for all standard models. Vacuum Switch as extra accessory, see page 38.

Heavy Duty Impeller Pump

A range of multipurpose bronze pumps. Compact design, raw water resistant pumps at an attractive price – with the renowned SPX Johnson Pump quality. These pumps are designed for a number of applications on board.

With excellent self-priming capability, these pumps are ideal as cooling water pumps for marine engines, bilge pumps, deckwash pumps, fresh water pumps, fuel transfer pumps and other applications. Also ideally suited on shore to empty septic tanks, to flush clean and to fill water tanks. Available in sizes from 3/8" to 1½" (4 l/min to 279 l/min).

Vacuum switch (see page 38) as extra accessory for F8B-8 only.

Extra Heavy Duty Impeller Pumps

Whenever you need greater strength or service from a pump, use an extra heavy duty flexible impeller pump with separate bearing housing and mechanical seal for less wear and longer life. These pumps cover the entire range of marine applications and may be used as cooling water pumps, bilge pumps, deckwash pumps, emergency and fire fighting pumps, etc. Available in sizes from 3/4" to 2.1/2" (13 l/min to 625 l/min). Wearing parts are easily replaceable and service kits are available for all standard models.

Vacuum switch as extra accessory, see page 38.

Vacuum Switch

For automatic shut off operation to prevent pump damage.

The vacuum switch works with all self-priming impeller pumps and should be used for e.g. bilge pumping/emptying of tanks to prevent the pump from dry running. The vacuum switch automatically shuts the pump off when the bilge/tank is dry. With the switch fitted, you can start the pump by remote push button or manually by depressing lever on the switch.

Order No.	Description
09-45053	Vacuum Switch

Port adaptor kit

Order No.	Description
09-45562	1.1/2" BSP for F8B-3000/5000-VF, F8B-3000/5000-TSS

Engine Cooling – Raw Water Handling

Flexible impeller pumps, F-series, provide an efficient solution to most raw water pumping needs. The primary advantage of a flexible impeller pump is its self-priming ability. As the vanes of the impeller are depressed and rebound, they create their own vacuum drawing fluid into the pump. A dry pump can lift water up to as much as 3 meters. Thus a flexible impeller pump being used for engine cooling needs not be located below the water line or manually primed. An added feature of flexible impeller pumps is that they can pass fairly large solids without clogging or damaging the pump. This reduces the need for filtering the incoming fluid.

For general raw or fresh water applications, the standard long lasting neoprene rubber impeller is used.

A general feature of all flexible impeller pumps is that they cannot be permitted to run dry for more than 30 seconds. Both the impeller and the seals depend upon the water for lubrication and will soon burn out if run dry. Wearing parts are easily replaceable, and service kits are available for all standard models.

Different types of cooling systems

Direct cooling

Indirect cooling Inter cooling

Keel cooling

Capacity Range

(based on water at 20°C/68°F)

Fresh Water Handling

For circulation of the internal, closed, fresh water circuit of the cooling system SPX Johnson Pump Marine can offer a number of alternatives in its DC driven CM- and C0-series (see page 21 for further information). It is also common to use a flexible impeller pump for this purpose if it is located on the cold side of the system (max. 55°C).

Other types of belt-driven centrifugal pumps may also be useful. The closed circuit normally transfers heat from the engine to the heat exchanger. The liquid is water and anti-freeze.

Cooling Capacity

The required output of the cooling pump – raw water as well as fresh water handling – is related to

- engine size and type (gasoline or diesel)
- type of cooling system (size of heat exchanger)
- water cooled engine oil, reverse gear, exhaust system

Contact your local dealer for more information, or for indirect cooling systems your supplier of heat exchangers.

Pump Mounting

Engine cooling pumps, the F-series, are available in several different styles and sizes to satisfy different cooling system needs. Flanged pumps which mount directly to the engine and crank shaft pulley mounted pumps are available for a wide variety of engines. SPX Johnson Pump Marine is one of the original equipment pump supplier to the largest manufacturers world-wide of inboard engines. Both flange mounted and pulley driven pedestal pumps can be used to provide cooling with a maximum of ease and flexibility. Pump ports are available in sizes from 3/8" to 2.1/2".

Flange Mounted Pumps

Flanged pumps are normal pumps produced in high volumes, customer designed for flange-mounting at a power take off of the engine. Different types of drives can be used but mainly gears or any type of driving members are used.

Crank Shaft Pulley Mounted

These pumps are designed for direct installation on the engine crank shaft pulley. Max. revs. 5.000 per minute. To prevent the pump from rotating, a torque bracket from the fastening point on the pump body to a suitable point on the engine has to be used.

Pedestal Mounted Pumps

Pulley driven pedestal mounted pumps are used when a free driving pulley is available on the engine. Two different types of pedestal mounted pumps are supplied:

FB-8

A range of bronze pumps in compact design. Ideal as cooling water pumps in marine engines. Available in sizes from 3/8" to 1.1/2", all with permanently lubricated double ball bearings and mechanical seal.

FB-3000

A range of extra heavy duty pedestal mounted pumps excellent for cooling purpose in commercial vessels. The design means separate bearing housings with permanently lubricated double ball bearings, mechanical shaft seal for extended service life. Wetted parts as wear plate, cam and endcover are easily replaceable.

Vacuum valve - Siphon breaker

A vacuum valve is a cheap insurance against water intrusion in a engine with expensive repairs as a consequence. The maximum ambient temperature should not exceed 60 °C. The valve opens at a pressure which is equivalent to 3-5 cm Water Column. The materials which are used are resistant to sea water and fresh water, and to glycol compounds in appropriate concentrations. Avoid exposing the valve to oil and grease. If it has been in contact with such substances, please clean or replace it.

Order No.	Description
09-47316-01	Siphon Breaker, Spud Size 12 mm
09-47316-02	Siphon Breaker, Spud Size 16 mm

- Non corrosive
- Easy to install
- Does not leak
- High quality plastic
- 5 spud sizes

Raw Water Cooled Engine

Fresh Water Cooled Engine

Take good care of the cooling system – change to a new impeller every year!

The impeller is a very important security device. Its task is to pump the water through the cooling system of the engine. But remember that the impeller should be replaced every year. And always make sure you get a SPX Johnson Pump original impeller. Then you'll know that it matches your pump exactly.

Remove the impeller with a slip joint plier or an Impeller.

Tech Tools

Smart Battery Charger

The 3176 utilizes a 5-stage automatic 5 amp charging system to quickly and efficiently charge a 12V battery while also extending its life. The automatic power switch feature will give the technician complete confidence that they are not damaging the battery by automatically switching to float mode once the battery is completely charged. This switching technology also helps to restore batteries that are slightly sulfated.

Order No.	Description
3176	Smart Battery Charger

Battery Load Testers

Applying a powerful 130 amp load, this heavy-duty battery tester delivers more accurate results than conventional 100 amp testers. Use it to determine a battery's state of charge as well as cranking and charging volts. With full 100-amp load-testing capacity, this reliable and highly accurate tester works on both 6- and 12-volt batteries. The unit performs both a voltage test and 15-second battery-load testing. Results are displayed on a color-coded 0-16 volt scale.

Order No.	Description
CP7614	130 AMP Battery Load Tester
CP7612	100 AMP Battery Load Tester

Battery Alternator Tester

This versatile charging system (battery and alternator) tester requires no internal battery of its own and is compact for maximum convenience.

Order No.	Description
CP7611	Battery Alternator Tester

Mini Circuit Tester

This compact, ergonomically designed coil cord circuit tester helps to quickly locate hot circuits. The cord is constructed from high quality, high visibility polyurethane for superior memory retention and resistance to oil and grease and is ideal for benchtop work and in small areas.

Order No.	Description
CP7841	Mini Circuit Tester

AC/DC Circuit Tester

Tests spark plug wires, 12V car/truck batteries, 4-13V variable DC voltage, household 110/220 AC, DC wire/circuit.

Order No.	Description
CP7847	AC-DC Circuit Tester

IR Thermometer

Infrared thermometers do everything from verifying the temperature in your AC system in the car or home to helping electricians to find an overcharge in electrical systems. Recent advances in optics make this technology more accurate and cost-effective.

Order No.	Description
CP7876	IR Thermometer Pro
