

AT-HV Series Air Handlers

Compact Units With High-Velocity Blowers

The AT-HV series of air handlers for marine HVAC chilled water systems are draw-through (ducted) units with high-velocity (HV) blowers. The AT-HV series replaces Flex-Duct and Draw-Through series air handlers, and has many improvements and options over the older units.

Significant improvements include: sloped "Positive-Flow" drain pan which reduces standing water, larger drain connections, improved coil design for better cooling and dehumidifying performance, coil is offset from drain pan edge to ensure all condensation is caught in the pan, redesigned piping so the bypass valve is clear of dripping condensation, pressure test ports for troubleshooting, and the new 24,000 BTU/hr unit uses a high-efficiency, internal-motor blower for quieter operation. On units with auxiliary (electric) heat, the new heater design allows removal from the top or side for access or servicing.

All Marine Air air handlers use corrosion-resistant materials. They feature "positive-flow" drain pans with anti-slosh foam lining and are fully insulated against secondary condensation. Electric heat is optional.

AT air handlers are available with "WhisperCool" brushless DC blowers (AT-DC series).

Key Benefits

- Compact design.
- High-velocity (HV) fully-insulated blowers are rotatable.
- Improved cooling and dehumidification.
- Drain pan has anti-slosh, anti-fungal foam lining.
- Vibration-isolation mounts reduce noise and vibration.
- Exposed sheet metal is insulated against secondary condensation.
- Remote air bleeder on 6 ft. (1.8 m) of flexible tubing with ball valve.
- Electrical box can be remotely mounted up to 6 ft. (1.8 m).
- Water-pressure test ports for troubleshooting.
- Allowance for connecting variable fan-speed drives.
- Rotatable blowers.
- Optional flow control automatically balances circulated water throughout the system.
- Optional Electric Heat.

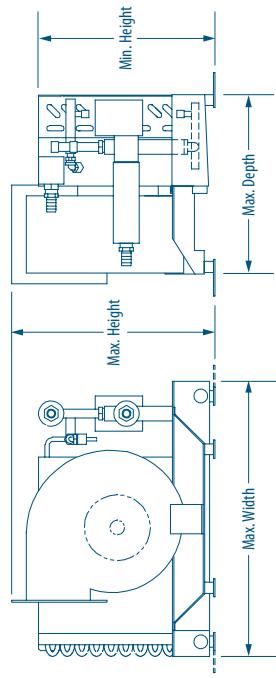

Specifications for AT-HV Series Air Handlers

Dimensions

Model ⁽¹⁾	AT4HV	AT6HV	AT8HV	AT12HV	AT18HV	AT24HV	AT36HV
Nominal Capacity - Cool (BTU/h)	4000	6000	9000	12000	18000	24000	36000
Nominal Capacity - Heat (BTU/h)	TBD	3412	5118	6824	10236	1550	13648
Voltage @ 50/60Hz 1-Ph. (V)	115	230	115	230	115	230	230
Full Load Amps (FLA) Cool (A)	1.06	0.41	1.6	0.9	1.1	0.6	1.5

¹ Model numbers shown are for 115V units with high-velocity (HV) blowers. Add a 'Z' for 230V units; add 'FC' for optional flow control; add 'L' or 'R' for valve position (relative to the blower side of the coil) and angle of the blower ('R' is the default); add 'E' for amount of optional electric heat in kilowatts (for ex. 1.5kW).

² All dimensions ± 0.30 in. (8 mm).
